DETAILED ACTION

This office action is in response to the amendment filed May 11, 2005. In accordance with the amendment, claims 1, 4, and 7-10 have been amended, while claims 3 and 6 have been canceled. Claims 1, 2, 4, 5, and 7-10 are pending.

Allowable Subject Matter

1. Claims 1, 2, 4, 5, and 7-10 allowed. The following is an examiner's statement of reasons for allowance: the relevant prior art does not teach or reasonably suggest the newly amended limitation, in which the mounting grooves, the first positioning grooves, *and* the through holes are each formed by surfaces along crystal faces of the first and second substrates. The closest prior art of record (Shevchuk US 2003/0794998 A1, Bellman et al. U.S.P. No. 6,633,700 B2) does not teach or reasonably suggest this specific claim limitation as amended. (claims 1 and 10). Regarding claims 8 and 9, the relevant prior art of record does not teach or reasonably suggest the *distance between relative positioning grooves or mounting grooves to be larger or smaller* at subsequent stacked substrates. See Figure 3 of application in which staggered distances in the pin locations create distances larger or smaller from the stacked substrates.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
